## ARBOR DAY MONDAY, MAY 6

Monday, May 6th, has been named as Arbor Day by decision of the Provincial Government. On this day special attention will be paid throughout the province to the planting of trees and flowers and the beautification of homes and grounds.

Mr. and Mrs. Miller and family of Mayton and Mrs. Gaetz of Calgary, were visitors at the home of Mr. and Mrs. D. W. Thoman last week.

Mr. Samuel Thoman has returned home after spending several weeks in Calgary.

Snell & Carter, Registered Optometrists, will be in their office over the Royal Bank on Monday, April 29th.

## CREAM PRODUCERS MARKET ASSURED

A meeting of the sweet-cream producers of the Didsbury district was held in the Opera House on Saturday, April 13th.

The meeting being called to order by the chairman, W. J. Scheidt, N. S. Clarke was called on for an address, which he gave in his usual style, direct and to the point. Mr. Clarke stressed the need for a determined effort on the part of the producers to hold the sweet-cream trade of Calgary.

After considerable discussion it was resolved to request the Board of Health of the City of Calgary to make more frequent inspections of the stables and premises of licensed chippers.

T. W. Carlyle, of the Crystal Dairy, Calgary, was asked to give assurance that the Didsbury cream producers would not be discriminated against in supplying their trade in Calgary, which assurance he readily gave, asking at the same time for a more steady supply during the year. In the event of a surplus the amount to be taken from each producer as take-cream is to be based on his deliveries for the months from September to December, inclusive. Any surplus over this is to be paid as "special".

## WEDDINGS

### BRIDE-OWEN

King's Union church was the scene of a pretty wedding Wednesday afternoon, April 10, at 3 o'clock, when Owen Margaret, younger daughter of Mrs. Margaret Owen, became the bride of Archibald Hobbie Boyce, eldest son of Mr. and Mrs. R. H. Boyce of Carleton Place, George A. Dickson was the officiating clergyman.

The bride, who was given in marriage by her brother-in-law, James A. McElroy of Didsbury, made a pretty picture in a gown of bluish rose color, etc., with cream lace. She carried a bouquet of Madame Butterfly roses.

Mrs. J. A. McElroy, sister of the bride, was her only attendant and close for the occasion a frill of purple blue poppies, with red to match, she carried a bouquet of pale pink sweet peas. Stewart Boyce, brother of the bridegroom, was best man. Clifford Hargis played the wedding march.

Following the ceremony a reception was held at the Empress Grill, when Mr. Owen and Mrs. Boyce received with the bridal party.

Later Mr. and Mrs. Boyce left on their wedding trip, the bride travelling in a tourist coupe of coach type. On their return, Mr. and Mrs. Boyce will make their home in Carleton.

## RED DEER BOY ORATORICAL WINNER

Tr. Walter B. Mead, aged 18, a student of Red Deer High School, goes the honor of representing Alberta in the Dominion finals of the Canadian and International Oratory contest. Walter, after winning in the southern Alberta division, was given the judges' trophy by a narrow margin over Kinsley Grant of Grande Prairie, the northern Alberta semi finalist, in the final contest at Edmonton, Friday night. As the result of his victory, in addition to winning a handsome cash prize, he will be given a trip as the guest of the Calgary Herald and the Edmonton Journal to Toronto where he will compete with representatives of the other provinces for the Dominion championship.

The W. C. T. U. will hold a sale of home cooking, needle work, farm products and white elephants in the Opera House, Saturday, April 20th from 2 to 6 o'clock. Afternoon tea will be served. Your patronage will be appreciated. 16 to

## Manufacturer's ANNUAL SALE of Satin - Glo

Clear-Enamel and Regular

for One Week Only  
Saturday, April 13  
TO  
Saturday, April 20

HERE is your opportunity to give necessary spring decorating. Only once a year is Satin-Glo sold for less than regular prices, and the generous reductions make it well worth while to buy all you need now at sale prices. Every year the popularity of Satin-Glo increases—it is the ideal finish for modern interiors—now used in thousands of homes throughout Western Canada.

This year, in addition to the regular Satin-Glo, we are including in the sale our new, quick-drying Clear and Enamel colors, so that no matter whether you want to brighten the walls, floor, furniture, woodwork or linoleum, you will benefit by these sale prices and save about a third of the cost.

Where you can use Satin-Glo in your home

### Satin-Glo Regular

Includes the more delicate shades for walls, woodwork in larger surfaces of plaster, metal or wood. It is ideal for kitchens, bedrooms and hallways because of its perfect satin-like sheen, which is waterproof, hard wearing and guaranteed washable.

### Satin-Glo Clear

Is a quick-drying, transparent finish for hardwood or softwood floors, kitchen, furniture and woodwork. It protects the surface from wear, keeps the dirt off, has no offensive odor and dries in 1 hour with a rich velvety satin finish. Also in stain colors.

### Satin-Glo Enamel

Is made in a shiny new color for decorating furniture, woodwork, woodwork and smaller articles. It is easy to use, covers well over old color and dries in 1 hour with a full satin enamel finish, free from the offensive high gloss of a cheap paint finish.

## Farm for Sale

The Soldier Settlement Board of Canada offers for sale by Public Tender:

The South First Quarter of Section 22 (22), and the North East Quarter of Section 10 (10), all in Township Thirtieth (30), Range Six (6), West of the Fifth Meridian, as described, and subject to the exceptions and reservations contained in the existing certificate of title.

Terms of sale are not less than 20 per cent of the purchase price in cash on acceptance of the tender, and the balance in five (5) equal annual instalments with interest at 6 per cent per annum on the amortization plan.

Each tender must be accompanied by an accepted cheque for \$100. If tender is accepted, this sum will be credited to the purchase price of the land. If tender is not accepted the money will be returned to the tenderer.

Tenders will be opened at CALGARY, Alberta, on MONDAY, April 29th, 1929.

The highest or any tender not necessarily accepted. If the land is not sold on the date above mentioned, the Board will be prepared to receive offers to purchase until such time as it is finally disposed of.

Tenders should be in plain envelopes, marked "Tender for the purchase of the SE 1/4 22 & NE 1/4 10 31 6 W 5th Meridian".

Address tenders and enquiries to:

**The Soldier Settlement Board of Canada**

## Think Of the Future

A condition of prosperity prevails throughout Canada from coast to coast. It is not confined to any one section nor to any one industry or group of industries. There is, in fact, a general prosperity to the extent that this is not to say that everybody or every industry is equally prosperous, or, indeed, that there are not those who do not enjoy prosperity. The contrary is true. But taking Canada as a whole, and in the major activities of its people, prosperity reigns today.

Such a condition is, of course, gratifying. Nobody would have it otherwise, and all desire that it shall be long continued. But there are dangers to be avoided in times of more or less universal prosperity which do not present themselves when times are hard and business depression rather than business activity is in evidence. It is an old and often proved statement that many people who can and have stood strong and true through the strain and stress of adversity, and won through to ultimate victory, have cracked and broken when favored with prosperity and success.

Canada is prosperous today, and it should take full advantage of its present favorable position. The people are optimistic and should continue so. They should continue to show vision, courage, and engage in constructive development. They would be unworthy of their heritage and the future possibilities of their Dominion if they acted otherwise. But they should nevertheless have a care in the enthusiasm of the glowing present not to forget the years to come.

Just as night follows day, winter follows summer, youth grows into old age, and death is the ultimate ending of birth, so is it inevitable that, in course of time, depression in business will follow buoyancy. A pendulum swings just as far one way as it does the other. It is a wise man and a wise community, therefore, which when times are good and development is the order of the day, takes thought of, and prepares for that future day when retrenchment may become a necessity.

If growth and expansion is artificially pushed too far; if an individual or a community becomes committed to large future obligations in order to further speed up present development, they may find themselves in great future difficulty.

All countries, all communities, most individuals, have passed through such bitter experiences. Western Canada has not been immune from them, and those who recall the "boom" days of the past know that the period of adjustment following the collapse of a "boom" was much longer than the "boom" itself, and that in the final analysis the losses far outweighed the gains.

At the present time all our Western cities, towns, villages and rural municipalities are planning their programmes for 1929. Times are prosperous, the country is growing, and the almost universal demand is for increased expenditures to provide this and that. Today it is possible and comparatively easy to borrow the money to carry such enterprises through and to meet the initial interest charges. But a debt is created which will remain for years to come. When the present buoyancy subsides, when money is less easy to obtain, when depression and some degree of unemployment replaces present favorable conditions in business, will the load be too heavy to carry?

It will be unless care is exercised by all civic and municipal authorities in seeing that the safety line in expansion is not passed, and that expenditures now made are for permanent constructive work which will be revenue producing in the years to come. Extravagance in ideas is no more justified in times of prosperity than they are at other times. It is in those "other times" that the bills really have to be paid.

Developmental works are necessary and are justified in times of prosperity, when they would be suicidal, in fact quite impossible, in times of depression. When depression prevails it is frequently impossible to provide for even imperative and wholly justifiable expenditures. These must be provided when times are prosperous. It then becomes an equally imperative duty to provide them.

But non-essentials, no matter how desirable they may be in other respects, should be carefully considered less citizens, the taxpayers, are unthinkingly swept into the authorization of expenditures which later on they may have cause to bitterly regret.

Such words of warning are unnecessary in times of depression; it is now, when prosperity is with us, that warnings are necessary and should be heeded.

## Simple Precautions Against FLU

### Sore Throat —

### — The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "flu" starts with a simple cold. At first the throat is sore—often just a little hoarse—soon the infection goes lower—then the chest is affected. A safe plan is to gargle the throat three times daily with "Nerviline"—this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing medicine, and for this purpose immediate results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease—breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippe, Influenza, Bad Colds, etc., and can be relied upon to give very satisfactory results.

## The Newest Invention

### Wrist Watch When Worn Three Hours Winds Itself

A self-winding watch has been invented by a Lancashire artisan. Finding that seventy-five per cent. of watch troubles were caused by dirt or moisture entering through the aperture of the winder, he set out to make a watch which would be completely enclosed. In two and a half years, working in his spare time, he succeeded. The new wrist watch winds itself. To keep it going all the owner has to do is to wear it for three hours a day. It can not be overwound.

As a vermifuge an effective preparation is Mother Graves' Worm Exterminator, and it can be given to the most delicate child without fear of injury to the constitution.

### Record Beet Acreage Predicted

All records for beet acreage in southern Alberta threaten to go by the boards in 1929. Pre-sign-up indications are that there will be over 10,000 acres of land planted to this crop if the spring outlook is at all satisfactory.

## A SPRING TONIC

### AN AID TO HEALTH

You Can Lay the Foundation Of Good Health Now By Building Up Your Blood and Strengthening Your Nerves Through the Use Of Dr. Williams' Pink Pills.

The good old fashion of taking a tonic in the Springtime, like most of the customs of our grandparents, is based upon sound common sense and good medical practice. Winter is always a trying time for those who are not in rugged health. Many men, women and children go through the winter on reserve strength they have stored up during the sunny summer months, and grow increasingly pale and languid as the spring days approach. A tonic for the blood and nerves at this time will do much for such people, by putting color in the cheeks and banishing that tired feeling that worries thousands of people at this season of the year.

It is impossible to be energetic if your blood is thin and weak, or if your nerves are frayed or shattered. You cannot compete with others if you do not get refreshing sleep at night, or if your appetite is poor or you are losing weight. You need a tonic at this time to add to your efficiency now, as well as to save you from suffering later on. And in all the realm of medicine, there is no safer or better tonic than Dr. Williams' Pink Pills. These pills tone and enrich the blood which circulates through every portion of the body, strengthening faded nerves and run-down organs, and bringing a feeling of new strength and energy to weak, easily tired, despondent men, women and children.

Mrs. L. Hupman, Summerville Centre, N.S., writes:—"Dr. Williams' Pink Pills have been of the greatest benefit to me. A few years ago I was in a badly run down condition. I became so weak and nervous that I could scarcely go about, and doing my housework left me completely used up. Everything seemed to worry me, and I was in a very discouraged condition, when I began taking Dr. Williams' Pink Pills. I soon found the pills helping me, and continuing their use I fully regained my health. Since then I always take a few boxes in the Spring to build me up for the hot weather, and always I find the best results. I therefore cheerfully recommend these pills as the best of health builders.

You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A new German cruiser to be constructed at Kiel, is to be electrically welded, no rivets being used in any part of the ship.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

"I wonder why they say 'Amen' and not 'Awomen' Bobby."

"Because they sing hymns and not hers, stupid."

Miller's Worm Powders destroy worms without any inconvenience to the child, and so effectively that they pass from the body unperceived. They thoroughly cleanse the stomach and bowels and leave them in a condition not favorable to worms, and there will be no revival of the pests.

Gillett: "Did you ever kiss a girl when she wasn't looking?"

Terry: "Not when she wasn't good-looking."

Use Minard's Linctament for the Flu.

The Government of Alberta will spend \$1,500,000 on improving and constructing roads in the province this year.

A Scotch mother complains that her daughters "have danced away from her." Having their Highland fling probably.

## "FEEL WELL AND STRONG"

MRS. J. MALIN R.R. No. 5, Barton St. East, Hamilton, Ont.

"I have to work in the store and do my own housework too and I got nervous and run-down and was in bed nearly all summer. The least noise would make me nervous. I was told to take Lydia E. Pinkham's Vegetable Compound and I have taken seven bottles. It has made me stronger and put more color into my face. I get along nicely now with my work and with my four children. I would like to answer letters."—Mrs. J. Malin.

MRS. FRANK LUKES R. No. 1, Box 58, Lankin, N. Dakota

"I had two babies which I lost at seven months. Before my third baby was born my husband advised me to take your medicine and he bought me three bottles of it. When I had taken the first one I began to feel better so I kept on during the whole period. We have a healthy baby boy and we are so proud of him and praise Lydia E. Pinkham's Vegetable Compound for the help it gave me. I feel well and strong."—Mrs. Frank Lukes.

## Lydia E. Pinkham's Vegetable Compound

Lydia E. Pinkham Medicine Co., Lynn, Mass., U. S. A. and Cobourg, Ontario, Canada.

# Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antidote for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

parts. You are happy again in five minutes. Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—anywhere.

## RUST RESISTING WHEAT SOON TO BE AVAILABLE

Winnipeg.—Efforts of agricultural scientists to develop a rust-resistant wheat, which would save millions of dollars annually, are meeting with success.

At a meeting here of the Associate Committee on Rust Research, organized under the auspices of the Dominion Department of Agriculture and the National Research Council, reports delivered showed that rust-resistant wheats which appear to have good baking and milling qualities have been secured through the efforts of the plant breeders engaged on the problem and now await development.

Paying tribute to the work of Canadian scientists, especially those working on agricultural problems, Dr. J. H. Grisdale, deputy minister of agriculture of the Dominion, said that profound study and unceasing application to the problems had at last produced results which seemed in a fair way to solve the difficulties in the way of combatting the rust menace. This, he added, was obtained through the close co-operation of the plant pathologists and plant breeders.

During the sessions of the committee it was reported by L. H. Newman, Dominion cerealist, that baking tests on some 36 lines of Marquis Cross rust-resistant wheats are under way at Ottawa. Of these several showed real promise and some of them excel in baking qualities.

Members of the committee today witnessed a demonstration of a newly-developed rapid electrometric method for the determination of moisture in wheat. The demonstration was conducted by Professor Burton, of the University of Toronto, and Arnold Pitt, inventor of the instrument. The instrument is not yet fully developed, but gives great promise when complete details of its operation have been worked out.

Tests developed last summer in Manitoba showed that sulphur dusting of grain is effective in controlling rust, but further research work is necessary for the development of a dusting schedule. Small plot, field and greenhouse tests were conducted. Both horse-drawn and motor-driven machines were used.

At the concluding session of the

conference, Dr. Grisdale announced that a conference of plant pathologists conducting research in plant diseases other than rust would be held in Edmonton some time during the autumn.

## More Settlers Going Into Peace River

Figures To Date Show Large Increase Over Last Year

Edmonton.—Nearly 1,000 settlers with a total capital estimated at approximately \$1,150,000, have gone into the Peace River country as new settlers to date this year, according to colonization officers here.

The real rush of settlers commences in April. Last April 1, 200 settlers went in. This April conservative estimates place the figure at 1,500, and the good start already made this month indicates that this estimate is likely to be exceeded.

The settlers are in the majority of cases Canadian and American of excellent type, probably 90 per cent. of them are seeking homesteads, which means that the great bulk of the settlement will be on new land.

Lands beyond railway extensions both north and south of the Peace are favored, the homesteads being about equally divided between Fairview, on the north side of the river, and Hythe, on the Grand Prairie extension south of the river.

## Money For Immigration

Over Million Dollars Spent In British Isles In 1928

Ottawa.—A total sum of \$1,016,202 was expended by the department of immigration in the British Isles in 1928. The sum expended by the same department on the continent of Europe alone last year, was \$75,796.67. The amount expended for obtaining immigrants in the United States was \$392,157. The aggregate amount spent by the immigration department from 1881 to 1928 was \$51,618,024.96.

The information was given in the House of Commons by Hon. Robert Forke, minister of immigration and colonization.

## Questions Gun Boat On Lakes

Ottawa.—Questions regarding the approach to the Canadian shore in one of the great lakes recently of a U.S. gunboat have been placed on the order paper of the House of Commons by Gen. A. E. Ross, Conservative, Kingston. General Ross requests information as to whether there is an agreement between the two countries for the use of gunboats on the great lakes and if Canada has any armed boats thereon.

## Heart Trouble Hands and Feet Numb and Cold

Mrs. Wm. Fowler, Auburn, Ont., writes: "Several years ago I was troubled with my heart and nerves, so bad, at times, my hands would become numb and cold. I took doctor's medicine for a while, but it did me little or no good. I happened to see

advertised and started taking them at once, and continued for some time, and since then I have had no return of my trouble."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

## Former Doorn Official Arrested

Berlin.—Police admitted that they had arrested Karl Hartung, recently secretary to the former Kaiser's wife, Hermine. The arrest had been kept secret. It was reported Hartung had threatened to make "revelations" about conditions at Doorn Castle in Holland.

The Oil Of Power. — It is not claimed for Dr. Thomas' Electric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

## Aviator Performs Dangerous Stunt

Makes First "Outside" Loop Ever Negotiated In Commercial Plane

Minneapolis, Minn.—Charles W. (Speed) Holman, holder of the world's record of 1,433 consecutive loops, claims the distinction of having made the first "outside" loop ever negotiated in a commercial plane.

Holman performed the feat at an altitude of 4,000 feet over World-Chamberlain Field here. He used the same Wright Whirlwind-motored biplane with which he won the New York-Seattle air derby two years ago.

The outside loop, regarded by aviators as one of the most dangerous "stunts" in flying, had never been completed before except in strong, especially constructed army planes.

## BABIES GAIN BY THIS SIMPLE METHOD

Doctors say, souring waste in baby's digestive tract is usually back of any failure to gain weight according to schedule. And the best proof, this is true, is the quick way, weak, fretful, puny babies improve when you cleanse their stomach and bowels and put them in order with a few doses of purely-vegetable, pleasant-tasting Fletcher's Castoria. This gentle, harmless preparation is the doctor's first thought to relieve those ills of babies and children, such as colic, gas, constipation, diarrhea, colds, etc. Just be sure you get genuine Castoria in the bottle that bears the Fletcher's signature.

## New U.S. Ambassador To Great Britain

Appointment Of Former U.S. Vice-President Is Announced

Washington.—Formal announcement of the appointment of former Vice-President Dawes as ambassador to Great Britain has been made at the White House.

The appointment was made after receipt of word from the state department that the British government had advised that the appointment of Gen. Dawes would be entirely acceptable to the King.

## Thinka Pact Necessary

Starnburg, Germany.—Count Von Bernstorff, chairman of the German delegation to the League of Nations disarmament preparatory conference, on the eve of his departure for Geneva, expressed the opinion that the out-law war pact was necessary and should be followed by world disarmament and the adoption of a general pact for settling all disputes by legal means.

## RICKETS

Children with weak bones or poor dentition receive great benefit from the use of

## Scott's Emulsion

It is wonderfully pure, vitamin-rich cod-liver oil and helps build a strong, healthful body, sound bones and teeth.

Scott & Bowne, Toronto, Ont. 25-66

## Long Term Leases For Churchill Lots

Will Probably Be For 99 Years Says Hon. D. G. McKenzie

Winnipeg.—Leases of lots in the townsite of Churchill, terminus of the Hudson Bay Railway, will probably be for 99 years, transferable and subject to revision as to rates at the end of five years, and each ten year period thereafter, it was stated by Hon. D. G. McKenzie, minister of mines and natural resources for Manitoba.

It was intimated a few days ago by Premier Bracken, that the government did not intend to sell lots at Churchill. Interest in the settlement of Manitoba's northern seaport continues to increase, Mr. McKenzie said. The government will concentrate its work on the townsite of Cranberry Portage and Sherritt-Gordon, the minister added.

## Will Join Los Angeles To London Flight

Australian Aviatix Plans To Accompany Captain William Lancaster

Redbank, N.J.—Mrs. Keith Miller, Australian aviatix, who flew with Captain William Lancaster from London to Australia, has said she would be second pilot and radio operator on a proposed flight from Los Angeles to New York, London and return.

Captain Lancaster will be pilot on the projected flight and Captain Harry Lyons will be navigator. Mrs. Miller said that she hopes to take off from Los Angeles in June. They plan to reach New York in one hop and fly between the east and west coast on their return without stopping. They will use a tri-motored all-metal closed "plane."

## SUNDAY SCHOOL LESSON

APRIL 21

COMFORT FOR GOD'S PEOPLE

Golden Text: "As one whom his mother comforteth, so will I comfort you." Isaiah 66:13.

Lesson: Isaiah 40:1-11.

Devotional Reading: Psalm 30:1-5.

## Explanations and Comments

The People Of Judah Have Suffered Their Full Penalty, verses 1, 2.—We pass today in thought from the time when Judah was enjoying great prosperity under good King Hezekiah (our last lesson), to the time when Jerusalem had fallen prey to the Babylonian power and had been laid waste, and the majority of her people carried away into exile in Babylon.

Comfort ye, comfort ye my people, saith your God. How great was the people's need of comfort is shown in Isaiah 40:27; 49:14. Who the "ye" are problematical: the prophets, or the prophetically-minded among the people; certainly not the priests; "The prophets may be nameless, but the Deity who speaks through them speaks as already known and acknowledged: 'My people, saith your God. By these impersonal voices a personal revelation is made.'

Speak ye comfortably to Jerusalem. Speak comfort to the heart of Jerusalem, is Dr. McFadyen's translation. The prophets were to put hope into the heart of the exiles, to strengthen them by an assurance of a speedy return to the home land. Jerusalem (then in ruins) is "an ideal representation of the people." "The city had suffered in and with her exiled people, and their deliverance was hers."—G. W. Wade. Tell her that her warfare is accomplished (her time of service, her exile, is over); that her iniquity, her guilt, is pardoned; that she has received double penalty (ample punishment) for her sins.

"The prophet's charge is laid upon all who would speak of Christ to men. Speak to the heart, not only to the head or the conscience, God beeches in the person of his ambassadors. The substance of the message may well find its way to the heart: for it is the assurance that the long, hard service of the term of exile is past, that the sin which brought it about is forgiven, and, more wonderful and gracious still, that God's mercy reckons that the ills which follow our faithlessness have more than expiated it."—Alexander McLaren.

Asthma Cannot Last when the greatest of all asthma specifics is used. Dr. J. D. Kellogg's Asthma Remedy assuredly deserves this exalted title. It has to its credit thousands of cases which other preparations had failed to benefit. It brings help to even the most severe cases and brings the patient to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

## NEW RECORD IS SET IN C. N. R. REPORT FOR 1928

Ottawa.—The railway operating revenue of the Canadian National for the year 1928 reached the record figure of \$276,631,921. After payment of operating expenses, amounting to \$218,248,343, taxes amounting to approximately five million dollars and other charges, the total operating income was \$53,213,729 compared with \$40,789,724 in 1927.

The report of Sir Henry Thornton, chairman and president, covering the operations of the system in 1928, was tabled in the House of Commons by Hon. Charles A. Dunning, minister of railways and canals. It tells of the progress made by the publicly owned system in its various departments.

The ratio of operating expenses to gross earnings in 1928 was 78.89 per cent. as against 81.75 per cent. in the previous year.

The gross earnings exceeded those of 1927 by \$27,915,546, (11.2 per cent.) Freight traffic produced \$209,429,962; passenger traffic, \$34,187,023; express, \$13,307,373; mails \$3,099,212, while miscellaneous operations produced \$16,598,348. Passenger revenue increased 1.7 per cent. over the figure for 1927. Gross express revenues were increased by \$695,947 (5 per cent.)

The total Dominion grain crop harvested in 1928 was approximately 1,209,000,000 bushels. The report estimates an increase of nearly 10 per cent. over the figure for 1927. For the calendar year grain deliveries on the western region of the C.N.R. were nearly 37 per cent. over the former record made in 1923.

## Income Tax Collections

Ottawa.—There was an increase of \$2,851,250 to the total income taxes collected in the year ending March 31 last, as compared with the year before, it was announced by Hon. W. D. Euler, minister of national revenue, in a statement issued. The total for the past year was \$59,422,297.

## Cutting Corns With Razor Leads To Lock-Jaw

Don't cut corns with an old razor blade. Infection, followed often by death may result from paring corns with an infected razor. Quick, safe relief comes from using PUTNAM'S CORN EXTRACTOR. If afflicted with corns, callouses or sore foot-lumps, use "PUTNAM'S"—it's reliable, and sure to shivel up the corns so they drop right off. No pain, no soreness, but quick relief from sore corns comes to all who use PUTNAM'S PAINLESS CORN EXTRACTOR. 25c. at all dealers.

The horns of the taxis in Italy are pitched in different keys, and when a block occurs on a street, the protest is melodious and never harsh.

**PULLING TOGETHER**

If the citizens and residents of a town do not pull together how can they expect strangers to think well of their own community? True, every town has people who have disagreeable characteristics. Each one of us is "peculiar" in some respects in the mind of the "other fellow." But even if it is the truth, we should not say evil things of our fellow townsmen.

Far better be like the Scotch, of whom Dr. Samuel Johnson said that no matter how big a rogue a man was in Scotland, all other Scotchmen sang his praises to every stranger in their precincts, simply because the rascal was their fellow-countryman.

It is better to be like the Scotch, even straining our veracity, at least in a harmless way, than to be like the Irish of whom this same sage facetiously said: "I love the Irish because they are so honest, they never speak well of each other."

All of us know that Mrs. So and So should not let her chickens ruin the spring garden, but we should remember that the chickens themselves are things of practical value even if foragers in manner and predatory in disposition. We should be thankful we do not live in a country or neighborhood among the nabobs whose peacocks wake up the inhabitants with their screeches and roost all day on the front porch, and which serve no useful purpose except to satisfy the vanity of their owners.

Learning to look for the good in our neighbors (and much good there is to be found) is a quality that will reap a harvest of benefits. A town divided against itself can never rise to the height to which its natural situation

**Ethyl Gasoline  
Demonstration Here**

R. J. Barrett wishes to announce that Mr. C. J. McFarlane of the Imperial Ethyl Gasoline Corporation, will lecture and make demonstrations on the use of this product in higher compression motors. Mr. McFarlane is well versed in the use of anti-knock fuels and higher compression motors. He was formerly associated with the Calgary School of Technology and Art. In this institution he was an instructor and lecturer on mechanics.

We can assure you that Mr. McFarlane has a large fund of information in this connection and will be very interesting to the public. He has some very fine equipment for demonstration purposes, and will be very convincing to those who are fortunate enough to hear him. He will be in Didsbury for one day on April 22nd.

We know that everyone interested in the use of motor equipment will be interested in attending this lecture, on Monday, April 22nd.

Mrs. J. E. Huget who was the delegate from Mons Chapter, Didsbury, to the recent I.O.O.F. convention at Edmonton was elected a provincial councillor.

Mrs. Fred Mannix spent the week-end at the home of Mrs. E. T. Sharrman.

Dance at Community H. H. Fri., April 19th. Bellamy's Orchestra.

Mr. E. Leclair left Monday to take up his position with the C.P.R. in Calgary.

A exciting comedy, "Beau Broadway," at the Didsbury Opera House, Wednesday, April 24th.

Baldy Strang's Sunset Artists playing in the local Opera House, Monday, April 22 are no strangers to Alberta having played other seasons in the prairie provinces.

Mr. Strang will no doubt be remembered for his real ability as a character actor and for his able handling of his natural roles with kilts and bagpipes. Miss McGahey is a clever comedienne and as a companion she shows real talent.

Come and enjoy an evening of music and comedy which will remain long in your memory.

would otherwise permit it. Forgetting our differences in petty affairs, or even in matter of magnitude, is absolutely necessary if we are to pull together.

To be blinded by prejudice is a condition that harms most him who is afflicted. Having eyes with which to see, minds with which to think and enthusiasm with which to work, no job is too big for a town in a public way. —Kamloops Sentinel.

**"KING OF KINGS"  
COMING HERE AGAIN**

"King of Kings" is coming again to Didsbury! Mr. Sharp has kindly made arrangements to show this beautiful picture, which many viewed recently, on Sunday evening next, with the permission of the Attorney-General's department.

This picture will be shown in the Opera House commencing at 9 p. m. sharp, April 21st, and a collection will be taken to be devoted entirely to the Didsbury Hospital. It is expected that special music will be arranged for the occasion, in keeping with the Sabbath and the sacredness of the picture.

It is hoped that young and old will avail themselves of this opportunity to see this remarkable picture and at the same time help a most worthy cause.

**G. A. Stimson & Co.  
Opens in Calgary**

An office of G. A. Stimson and Company, Ltd., of Toronto, has been opened in Calgary by Mr. H. J. Hogan, who during his five years' association with the company opened the branch offices at Ottawa, Montreal and Guelph.

G. A. Stimson and Company, Ltd., was organized 43 years ago by Colonel G. A. Stimson, a n English financier, and until two years ago devoted its attentions solely to bond issues.

Recently, however, the company has turned its efforts partly to office buildings, and is now making an issue of bonds for the erection of the new Marine Building in Vancouver. It successfully sponsored two other bond issues in connection with office buildings in Toronto. Every bond issue recommended by G. A. Stimson and Co., Ltd. has paid interest and principal when due.

The Marine Building is to be 20 storeys high and will be the tallest building west of Toronto when completed. Work was started in March.

**Wash Away  
That Itch**

With a Penetrating Antiseptic  
Now you can stop burning itching skin torture. Apply the pure cooling liquid D.D.D. ITCHING STOPS INSTANTLY. The healing elements penetrate the skin and soothe the irritated tissues. Eczema, pimples, ulcers, rashes, all forms of skin trouble quickly yield to this famous antiseptic. A 35c bottle proves its merit or your druggist gives your money back. D.D.D. gives skin health. (Use D.D.D. Soap).

Offers You Safety and Profitable Returns Through  
THE MARINE BUILDING, Vancouver, B.C.

**6%**  
**Redeemable Debentures**  
(Non-transferable)  
**PRICE 100 to YIELD 6%**

## INTEREST

Interest payable semi-annually by cheque January 1st and July 1st each year. (Interest cheques payable at par at any chartered bank in Canada without deduction for exchange).

## CAN BE CASHED QUICKLY

This issue of Debentures is primarily intended to meet the requirements of investors who do not wish to invest their funds for a definite fixed period but only for such length of time as may suit their convenience. The special feature of this Debenture is that the Registered holder can demand the return of the full face value thereof plus accrued interest upon giving 30 days' notice in writing to the Company.

## CASH RESERVE

While it is anticipated that a large proportion of the Company's investments will be in the form of fixed assets such as Revenue-producing buildings and real estate, it is intended that the Company will at all times retain a Reserve of Cash, readily negotiable bonds, etc., with which to redeem such debentures of this issue as may be desired by the holders thereof.

## The Marine Building

This building is being built on the corner of Hastings and Burrard Streets in the city of Vancouver, B.C. Its 20 storeys extend upward 200 feet. It will be the highest and largest office building in Canada west of Toronto.

Work was started early in March. Part of the building has already been leased. Among the tenants will be The Merchants Exchange, who have leased six full floors for their members. Standing on one of the most prominent corners in Vancouver, its increased valuation is assured through the natural growth of the city.

THE MARINE BUILDING

For 46 years every bond issued, recommended and sold by G. A. Stimson & Co., Ltd., has paid interest and principal when due.

FOR FULL PARTICULARS APPLY

The Oldest Bond House in Canada. Offices at Toronto, Montreal, Ottawa, Vancouver and Calgary.

Res. Manager H. J. HOGAN, 909 Lancaster Bldg. Calgary, M9665

**7%**  
**First Charge**  
**Fully Registered Debentures**  
**PRICE 100 to YIELD 7%**

## INTEREST

Interest payable semi-annually by cheque January 1st and July 1st each year. (Interest cheques payable at par at any chartered bank in Canada without deduction for exchange).

## MATURITY

The principal money secured by these Debentures will be repaid together with interest on any date specified by the applicant on his original application for the same or on the death of the registered holder or on the death of the survivor of the joint registered holders whichever shall first occur. Thus enabling investors to invest their funds and to obtain repayment of the same upon any date they may name provided that such date is named on the original application for the debenture.

## SECURITY

These Debentures are secured by a First Charge upon all the assets of the Company and rank prior to the 6% Redeemable Debentures as well as to the common stock.

## RIGHTS

Subscribers to these debentures will be given the privilege of purchasing at a price of one dollar per share 20 no par value shares of the common stock of the company for each \$100 of this issue of debentures allotted and issued to them. The directors, however, reserve the right to cancel this privilege at any time without notice and also the right to restrict the amount of debentures to be issued to any subscriber and to reject any and all subscription books in whole or in part, to allot less than the amount applied for, and to close the subscription books at any time without notice.

followed by and by Mrs. Farrant. It was decided to present a first-aid kit to Melvin school and books to Rugby school. Mrs. C. Young was chosen as delegate to the forthcoming convention at Edmonton. A quantity of business was transacted, after which a dainty lunch was served by Mrs. Hosgood. The May meeting will be held in the Rugby school.

Corinne Griffith starring in "The Garden of Eden," at the movies, Didsbury, Saturday, April 20th.

Two new bulletins have recently been issued by different branches of the Alberta Department of Agriculture and are now available for distribution. The first of these "Home Decoration" is published by the Alberta Women's Bureau and will be found to be of particular interest to those interested in home beautifying. The second, entitled "Turkey Breeding and Management" is issued by the Poultry Branch and contains a great deal of valuable information dealing with this profitable farm product.

# BEAUTIFY CANADA

Clean Up, Paint Up, Keep It Up --- Increases the Value of Your Property

## THE DRIVE TO FINISH OLD MAN DIRT IS ON

Greatest Effort in History of Canadian Cleanliness  
Includes Hundreds of Communities

The greatest effort in the history of Canadian cleanliness is on! Cleanliness has a history. Its influence can be traced down the ages. Those races that were Clean were the races that were Masters.

The Athenians, with their baths and beautiful homes conquered the Persians, with their unkempt beards and dirty skins. The Romans, with their aqueducts, their barbers, their gardens beat back the barbarians with their goat skins and greasy fingers.

Louis the Fourteenth was the daintiest monarch France ever had and one of her mightiest. Fifth kept the Panama Canal from being built years before it finally was. Bolshevism flourished when the dirty and the ignorant gained control in Russia—anarchy breeds in filth and squalor.

Cleanliness has always been po-

tent. Modern sanitation saved millions of lives in the great war.

Real people, the wise, the leaders in progress, always have fought for cleanliness. At times it has been a sporadic fight, a skirmish. A clean man was handicapped by a neighbor who let his premises run wild. But co-operation has been brought to play at last.

This year, in Canada alone, hundreds of villages, towns and cities are campaigning for cleanliness, health, and beauty. They are not doing so for a day or a week but in a continuous campaign. There is a steady pressure.

Tin cans, flies, refuse, dirt, waste paper, unsightly buildings, unpainted surfaces are taboo. The drive is on. I won't be stopped.

Join the forward movement. Clean Up, Paint Up, and Keep It Up. Make the old enemies, Dirt and Disease and Unsightliness abdicate forever.

## The Use of Paint

Lessens Farmer's Cost Of Doing Business

The farmer, like the manufacturer, must employ the most efficient and economical methods of doing business if he is to prosper. When he keeps track of costs he finds that by building of better material, buying better implements, and then taking care of them, he increases his power of production and lessens the drain on his income.

Next to the purchase of good materials, the use of good paint is the farmer's best insurance; it protects his property and equipment against the rapid deterioration caused by wear and weather. The protection and appearance of barns, fences, windmills, wagons, tanks, etc., are just as important as the careful upkeep of factory tools and machinery, and depreciation here should be figured as carefully by the farmer as by the manufacturer.

A few cents invested in paint and a little work each season will soon show in the lengthened life of your equipment to say nothing of the satisfaction you will take in its improved appearance. Here is a list of paints that it will pay you to keep on hand:

Two-quart can of buggy paint in red and black, for painting up wagons and buggies.

A small can of aluminum paint, for interior iron work, such as stalls, stanchions, etc.

A gallon can of implement or spar varnish.

A half-gallon can of metal protective paint, for metal buildings. A good graphite paint is best for this purpose. Paint over regularly all such exposed metal parts as hoops, turnbuckles, outside hinges, door-hangers, iron hitching posts, etc.

A gallon can of barn color, or house color for general repair work. It is well also to periodically treat the inside of staved silos with the special compounds prepared for that purpose.

The life of fence posts can be prolonged three times if the lower part is treated with the compound used on silo staves. This can be most easily done by taking a full barrel of the preservative, putting half in another empty barrel, taking the heads out of both barrels, and letting the fence posts stand in them over night. This treatment will make the poorest wood last longer than the best chestnut.

It has been proved that the painting of good galvanized wire fence doubles its life. In putting up a new woven wire fence the painting can be done very easily by making a

shallow trough that will take in the roll of wire fencing. Turning the roll around in the trough and pouring the paint over it at the same time will thoroughly cover every part. A good metal paint is best for this purpose.

A paint which makes concrete sufficiently non-absorptive to shed an ordinary rain greatly enhances the value of concrete buildings for cow stables, granaries, dairies, etc. The absorption of water through the walls has been the principal objection to such buildings in the past. Concrete paints come both in natural cement color and in several pleasing shades.

It is never advisable to try to paint an old shingle roof unless it has been previously painted, because the water gets under the shingles causing them to rot and curl up. It is always well, however, in putting on a new shingle roof to dip the bundles into a properly prepared shingle stain; this is especially true now-a-days as the quality of shingles is much poorer than formerly.

It is good policy not only to prevent deterioration with paint but also to forestall paint troubles. The commonest of all paint troubles is peeling, the chief cause of which is moisture, and moisture in turn is due to:

1. Dampness In the Wood. This means not only wood which is damp to sight and touch, but wood improperly seasoned, recently exposed to rain or fog or dew.

The pores in kiln-dried lumber are open and will soak up moisture; for this reason allow a new building to stand a month or two unpainted.

In short, if there is moisture in wood, heat will drive it either out or in. If heat on the inside of the house drives it outward the paint will peel.

2. Dampness Back Of the Wood. This is commonly due to green plaster. Too often in a hurry to complete a house the painters are put to work on the outside while the plasterers are finishing the inside. To complete the rush, about the time the paint is dry the furnace is started to dry the plaster. The moisture must find an outlet and is driven out through the exterior woodwork, carrying the coat of paint with it.

3. Ochre Priming Coats. Common ochre is the cheapest pigment, and when one remembers that the priming coat is the foundation on which the finishing coat depends, he does not have to be a paint manufacturer or dealer to appreciate how absurd is the statement so often made "Anything is good enough to prime with." Cheap ochre is nothing but clay stained, which makes a slippery, brittle paint.

4. Old Paint Loosely Attached To the Wood and Not Thoroughly Cleaned Away: If old paint is not firmly attached to the wood the con-

traction in the drying of the new paint will peel it off. Repaint before the old paint begins to let go. It's poor economy to delay repainting.

In case the under coat is brittle, scrape, sand-paper, and wire-brush all loose particles before repainting. If too far gone remove with a painter's torch. Always remember three thin coats of paint are better than two thick ones. The thick coats may save a few dollars in the beginning but may cost more than double in the end.

5. Fat Resinous Wood Not Properly Seasoned Or Prepared For Painting. This is a recent trouble due to the scarcity of well-dried lumber. The chief trouble is with yellow pine, which is full of turpentine and resin. It is the resin that causes the trouble. It mixes with the paint and makes it brittle. The knots are the worst spots and should be coated with shellac before painting. Turpentine dissolves resin. This fact suggests much turpentine and little oil in the priming coat, and perhaps more turpentine than usual in the second coat, but, when every care is taken, paint will sometimes peel on yellow pine, where it is no fault of the painter or the paint. Liberal use of turpentine and vigorous use of the brush to work the paint into the wood are necessary to success on yellow pine.

6. Boiled Oil. Never use boiled oil in the priming coat; even when it is genuine boiled linseed oil; its preparation gives a glossy, varnish-like surface, and the priming coat should always be flat, or the succeeding coat will not adhere to it. Boiled oil should never be used for any coat in outside painting.

Paint may fail from causes other than those named because of application on dirty or greasy surfaces; because of leaky roofs; because of the use of adulterated linseed oil and poor dryers; because the coats are too thick, or because the under-coats are not dry—but the majority of cases are covered by the causes specifically named in this article.

## A Clean Town

Adds To the Value Of Your Estate and Promotes Good Health

Towns are measured by their general cleanliness and civic pride.

We need more trees and shrubbery around our homes, about the schools, in the parks, along water courses, and many other places.

Good health depends to a great extent upon the removal of rubbish and filth and the destruction of breeding places for disease-carrying insects.

It is the duty of every citizen to prevent deterioration. Paint is both a beautifier and a preventative of building decay.

Epidemics that come in the summer months have their origin in filth. We cannot hope to make our town a bigger town, unless we make it a cleaner town.

It is a well known fact that flies have been the means of transmission of disease, and this pest may be responsible for the transmission of infantile paralysis.

Filth, more than all other causes combined, produces disease, and it is up to every citizen to see that his immediate surroundings are sanitary.

Every citizen should make an effort to clean up his house and property so as to avoid fire risk, to abolish all places that might breed flies and mosquitoes to eliminate weeds and to help clean up vacant lots.

## Clean-Up and Paint-Up On the Farm

The man who owns a farm or lives on one should be just as much interested in Clean-Up and Paint-Up as the city householder. And the incentive to start such campaigns has been just as marked in the rural districts as in the more thickly populated ones.

Farmers everywhere are being urged to remove ramshackle buildings, repair and paint those that remain, trim hedges and trees, and clean and paint tools and machinery.

## These All Count

Here are some pointers for citizens who would regenerate their community with a real Clean Up and Paint Up campaign:

1. Take away all the ashes and trash from your back yard immediately. Send your rubbish to the dumping ground.

2. Suggest to several men with teams, that they drive through the alleys with a sign, "Clean-Up Wagon" on their wagons; also a bell calling attention. People are only too glad to pay such a man for hauling their trash away.

3. Burn all rubbish that will burn. Clean your vacant lots and alley ways.

4. Make your street and parking look as trim and well kept as possible.

5. Refrain from throwing old paper, banana and orange skins into the streets.

6. Plant some grass and flower seeds to make your home beautiful.

7. If your store front is dingy, paint it. Nothing will do more to improve the appearance of a town than the liberal use of paint.

8. If there are unnecessary, unsightly sheds in your back yards, tear them down. They detract from the beauty of your home and the town. Open spaces and fresh air are better.

9. If your walk is an eyesore to those travelling over it, repair it or build a new one.

10. Trim hedges and trees and spray trees.

11. Paint and whitewash barns, poultry houses, outbuildings, etc.

12. Paint tools and machinery.

The local "Clean Up and Paint Up" campaign offers the most direct and practical and permanent avenue through which women, organized or individual, can work for homes and home towns beautiful and sanitary.

## Keeps Floors Beautiful

Beautiful floors are largely a matter of prevention—the great secret is to put them in perfect condition—and then keep them that way. Doorways, passages and tracks become worn and unsightly first. You can keep these spots looking well by waxing them frequently. This requires but little time and effort if a good prepared wax and floor polishing brush are used.

## Rules For Fire Prevention

Do not permit rubbish, greasy rags, paper and useless waste to accumulate in or around buildings.

Do not allow matches kept in your homes, offices and stores in other than metal boxes. Use safety matches.

Do not allow children under ten years of age to use matches.

Do not use lamps and lamp burners that are not clean.

Do not tamper with or extend electric wire; employ an electrician.

Do not keep gasoline in other than air-tight cans painted red.

Do not fill tank of gasoline stove when lighted and fill by daylight only.

Do not permit a rubber tube connection to a gas stove.

Do not empty ashes in other than metal cans.

GAUITS LIMITED

Winnipeg Edmonton

Do not carelessly throw cigar and cigarette stubs where they could cause a fire.

Do not fail to warn your children of the dangerous bonfires.

Loss through preventable fires in the United States is \$250,000,000 which, however, is exceeded by the annual loss through the lack of painting—according to Prof. H. H. King, who has conducted paint tests for several years for the people of Kansas, at the Kansas Agricultural College.

Clean-Up and Paint-Up campaigns reduce fire losses and insurance rates; increase property values; remove unsafe buildings; swat the fly; make school and home gardens; make cleaner alleys and yards; educate children in fire prevention and clean-up measures; plant trees; collect and utilize waste; make more attractive and safer homes and places of business, and develops a community spirit that permanently insures a cleaner, safer, healthier and more beautiful town.

Toothbrushes and handkerchiefs have figured among the tokens of valor presented by Chinese generals to the troops under their command.

CHAPTER XVII.—Continued

Connie made no attempt to check her cayuse's onward flight. She was in no mood to listen to the kudos of the admiring crowd; she wanted only to get away from the scene as quickly as possible. The movement toward the centre gave her the opportunity she desired, and she urged the weary cayuse through an opening on her left. Many hands were reached up to congratulate her, but she pushed her way through to the trail.

At the sound of hoof-beats behind her she turned to see Lafonte urging his tired mount toward the Pemberton trail and looking back apprehensively over his shoulder.

Several men were running after him, shaking their fists and uttering loud imprecations. A man leaped from behind a jack-pine to land in the path of the half-breed, lunged for the reins, missed, then caught the stirrup. Lafonte struck the man a blow with his heavy whip that loosened his hold and felled him to the ground.

Connie saw Gillis break from the crowd, jump to the saddle of a cayuse and start after the fleeing man just as the latter disappeared in the woods. Gillis waved his hand to her and vanished in pursuit. She urged Pegasus to the shelter of the timber as she saw her father and Donald running toward her.

The strenuous race and the spectacular fall had left both horse and rider in a badly shaken condition. Connie's body was bruised and sore, and her head ached horribly. The cayuse's strained muscles were stiffening, he was limping badly, and his head drooped wearily as he dragged his tired limbs up the steep trail.

WHEN a cold or exposure brings aches and pains that penetrate to your very bones, there is always quick relief in Aspirin. It will make short work of that headache or any little pain. Just as effective in the more serious suffering from neuralgia, neuritis, rheumatism or lumbago. No ache or pain is ever too deep-seated for Aspirin tablets to relieve, and they don't affect the heart. All druggists, with proven directions for various uses which many people have found invaluable in the relief of pains and aches of many kinds.

**ASPIRIN**  
Aspirin is a Trademark Registered in Canada

W. N. U. 1781

At the barn door Connie dismounted stiffly, removed the horse's bridle, then threw her arms passionately around his neck and stroked his symmetrical head with soft caresses. "I'm so sorry, Peggy darling," she said in a choking voice.

The horse nipped her shoulder in a weak attempt at playfulness, as if to signify that he quite understood.

Connie's eyes brightened at a sudden thought. "Peggy, dear," she whispered softly as she nestled her cheek against his soft mane "do you know that I can have some nice clothes now? Lots and lots of nice things. I am going to buy you a blanket—a nice thick one for winter—and some ribbons for your mane. And you, Peggy—with a flood of tenderness in her voice—"you won't all this for me."

She was crooning sweet nothings in his ear that only Pegasus could understand when her father appeared, breathless from running, his face grey and anxious.

"Are you all right, Constance darling?"

Connie stepped forward. She was pale and weak, but her colourless lips tried to form a smile. "Yes, Daddy, dear—I'm—all—ri—" Her voice trailed to a whisper and the blue eyes closed as darkness fell upon her like a cloud. Swaying uncertainly for an instant, she fell like a broken flower into her father's outstretched arms. For the first time in her life Connie had fainted. She lay like a child in his trembling arms, her upturned face wearing the pallor of death.

With a prayer on his lips and an agony of fear in his heart, her father carried her to the cabin and tenderly stretched the bruised little body on the coarse blankets of her bunk.

CHAPTER XVIII.

At the race-course the crowd eddied excitedly about the judges' stand, or stood in groups talking of the wonderful performance of the spotted cayuse that had made the erstwhile champion appear a mere tyro.

Gillis came riding slowly from the woods and was hailed by questioning shouts from a score of throats.

"Did you get him?"

A bloody handkerchief was wrapped around the big man's head, and a livid welt showed on his forehead. He smiled grimly as he dismounted. "I got the d—d skunk," he answered savagely.

He turned to a group of Indians. "You fellows'd better look out for him when you go along; his eyesight's kinda bad."

Donald came to the front of the judges' stand and held up his hand for silence. Gradually the hum of voices died away and the crowd turned to face him.

"As you know we are to take up a collection to add to the Company's purse. The gentleman below," pointing down at Andy, "will hold the hat. We have witnessed an exhibition of matchless skill and pluck. Give as you feel."

The crowd cheered lustily. Then, jostling each other good-naturedly like a lot of schoolboys, they formed in a long queue.

Andy started the contribution by giving his whole roll of bills. Money showered upon him until he was forced to call for another hat.

"Fightin'!" Jack came to Donald in great perturbation. "Say! Our gang's all stony broke. Can we sign a due-bill?"

Donald called the time-keeper.

"Make her out for twenty bucks for each of us," said "Fightin'!" Jack. Andy's spirits soared as the pile rose higher.

"God bless 'er little 'eart," he murmured, "she can 'ave an 'ole ship-load of them blinkin' canisole things."

An hour later, as Donald climbed the hill to deliver the prize, he met Doctor Paul.

"How is she, Doctor?"

"She's had a nasty shaking up, but there are no bones broken. She will have to remain in bed for a week or so."

Wainwright saw Donald coming and stepped outside the door to meet him. "She's sleeping," he said in a low tone. He looked questioningly at Donald as the latter passed him the package of money.

"The prize money," Donald explained.

Wainwright peeped at the contents and his face lit up with pleased as-

tonishment. "I understood that the purse was to be a small one!"

When Donald told him of the collection Wainwright's face flushed hotly. "Is that the custom?" he questioned sharply.

Donald nodded.

Wainwright paced nervously with hands clasped behind his back. "Pardon my abrupt manner" he said contritely, "I am a bit out of sorts today."

Every evening Donald called at the Wainwright home, bringing little delicacies carefully prepared by Andy. Once he spoke to Connie from outside the door, and her answering voice gave him an odd thrill. He pondered over this as he made his way down the hill. He was struck by a sudden thought. His face broke into a smile and he shrugged his shoulders. "Nonsense," he said aloud.

Janet remained several days after her friends had returned to the city. She tried in vain to restore the familiar relations which formerly existed between herself and Donald. His evening visits to the cabin on the mountain deprived her of his company, and she, half-jestingly, reproved him for his inattention to her. With spirits depressed and a despondent look in her dark eyes, Janet returned to Vancouver.

One evening Wainwright gave Donald a letter to post, addressed to a big departmental store in Vancouver. A few days later there arrived numerous bundles and boxes, including a big trunk. Donald with the assistance of Gillis's crew carried them up the hill.

"I've brought your big trunk with the 'bulgy top,' Miss Wainwright," he called.

Connie sat up in her bunk so quickly that her head bumped the boards above. "Miss Wainwright" he had called her! Her eyes glowed in the dusky half-light. "Thank you so much," she replied.

The next day Wainwright informed Donald that Connie was up and would see him.

"Just a minute, Dad," she cried as she heard them approaching. Feverishly she rushed to the small mirror to glance at her reflection. With nervous hands she fluffed the hair about her ears and smoothed imaginary wrinkles from the collar of her dress. Then she sat down gravely and arranged her skirts about her.

**CARTER'S LITTLE PILLS**

**NICE WORDS WON'T DYE a dress or coat...**

Neither pretty pictures nor colorful adjectives will dye a dress or coat. It takes real dyes to do the work; dyes made from true anilines.

Next time you have dyeing to do, try Diamond Dyes. See how easy it is to use them. Then compare the results. Your dealer will refund your money if you don't agree they are better dyes.

You get none of that re-dyed look from Diamond Dyes; no streaking or spotting. Just fresh, crisp, bright new color. And watch the way they keep their brilliance through wear and washing. They are better dyes because they contain plenty of real anilines—from three to five times more than other dyes. But you pay no more for them than for ordinary dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. Remember this when you buy. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

**Australian Wine Firm**  
An old-established wine firm of Australia has incorporated under the British Columbia provincial statutes and proposes importing Australian wines in large quantities.

**KEEP YOUR BABY HAPPY AND WELL**

Every mother wishes her child or children to be well and happy; to be bright-eyed, rosy-cheeked boys and girls. No mother, though, can expect her children to escape all the ills of babyhood and childhood, but she can do much to help them fight the battle for health.

All prudent mothers constantly keep at hand the means of aiding their little ones when sickness comes suddenly—as it generally does in the case of children. In every home where there are infants and young children Baby's Own Tablets should be found. Read what Mrs. Mary Hill, Centre Dummer, Ont., says concerning these Tablets:—"I am the mother of six children and would not be without Baby's Own Tablets. They are a wonderful medicine for little ones."

Baby's Own Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus break up colds and simple fever, banish constipation and indigestion and allay the irritation accompanying the cutting of teeth. They are absolutely safe and are pleasant to take. The Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

You can tell a civilized country. It's one where people kill the birds and then spend millions to fight insects.

An Oil Without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effects are lasting.

Magistrate: Are you sure you understand the nature of an oath?  
Youth (scared stiff): Sure. Ain't I your caddy down at the links.

Minard's Liniment for Coughs and Colds.

He (earnestly)—"I mean to kiss you, and kiss you, and kiss you."

She—"That would be only three times."

Minard's Liniment prevents Flu.

**Long Air Trip Planned**  
One of the longest air lines in the world is being contemplated between London and Cape Town. The route, more than 8,000 miles long, will branch off at Cairo, crossing over into India.

## LEAGUE OF NATIONS DAY AT W.C.T.U.

A very successful meeting was held at the home of Mrs. W. Rupp Thursday afternoon last. The meeting was well attended, about 40 ladies being present including members and visitors.

Mrs. Rupp led the devotional exercises. Following the transaction of some important business a very pleasing duet was rendered by Misses M. Herber and Z. Cressman.

Mrs. C. Dendrick then addressed the meeting on the subject, "International Peace." Space does not permit a detailed report of the splendid discourse presented by the speaker.

"It is encouraging to know that the year 1928 showed greater advancement toward peace than any previous year in history. The foundation is laid. The great movement has begun. As a means of securing the widest possible interest and support of the League of Nations Society in Canada, a nation-wide appeal from coast to coast will be made on April 15th of each year, the day to be known as League of Nations' Day.

"United we stand, divided we fall." Even as the world mobilized for war in those terrible years of the late war, so must we mobilize for peace. Jesus, The Prince of Peace, was the world's greatest peacemaker. He alone showed the way to lasting peace. The peace that passeth all understanding."

After listening to this interesting and timely address different numbers were called upon to give the 'Why's and Wherefore's' of this great movement. The meeting closed with a prayer by Mrs. F. Finlay. A social half-hour follow-

in which all took part, and which was thoroughly enjoyed. A splendid offering was received.

# SPRING SHOWING of the NEW CHEVROLET SIX

—a Six in the price range of the four!

WE cordially invite you to visit our special Spring display of the new Chevrolet Six.

Here, in a price class that has hitherto been occupied exclusively by four-cylinder automobiles, you will see displayed a line of beautiful models that bring you every advantage of six-cylinder performance in the price range of the four . . . six-cylinder smoothness, six-cylinder reserve power, six-cylinder speed and six-cylinder acceleration.

And this amazing six-cylinder performance is matched in impressiveness by the beautiful new Fisher bodies. Longer, lower and roomier . . . finished in striking new colors . . . and offering numerous outstanding comfort and convenience features—they introduce into the low-price field a new conception of luxury, comfort and style.

Come in any time the week of April 20th to 27th. We want you to see for yourself that no other car in the world can give you so much at prices within the reach of all.
